Kyle Partridge

I am a developer that is passionante about building systems as simple as possible to solve the problem at hand.

Work Experience

2011 - Now   *SendGrid*

- Web development in Symfony 1.4
- Assisted in a partial migration to a Rails front end
- Internal Api development using Python and Twistd
- Maintenance of legacy perl systems
- Experimental work with HBase and Cassandra
- Assisted in a new approach to the front end architecture, utilizing Ember.js and RESTful APIs
- Heavy focus on unit testing, integration testing, and capacity testing for systems with high traffic
- Agile / Scrum environment with 2 week sprints

2009 - 2011   *Pacific Industrial Contractor Screening PICS*

- Worked with a small team of 3-5 developers
- Java EE development using Sprint, Struts 2, Hibernate, Maven and Tomcat
- Responsible for a majority of the dynamic web development using jQuery, HTML and CSS
- Responsible for deployments and emergency maintenance of the production infrastructure: 3 web servers and 1 database server

2008   *Internship at First American CoreLogic*

- Java EE development using WebLogic
- Implemented a layered mapping feature to display real estate data using Microsoft Virtual Earth.
- Trained new team members on the codebase for the project
- Agile / Scrum environment with 2 week sprints

Education

2004 - 2008   *California State University, Long Beach*

- B.S. Computer Science
- Cumulative GPA: 3.8; Major GPA: 4.0
- Graduated Magna Cum Laude
